Portfolio:  **GitHub**

Career Objective

Results-driven engineering graduate with a strong foundation in problem-solving, critical thinking, and data analysis. Eager to leverage my technical expertise and data analysis skills in a collaborative environment to deliver impactful insights and optimize processes. Committed to delivering efficient and effective support, ensuring customer satisfaction, and continuously learning and growing within the role.

Work Experience

Freelancer

Data Analyst | Nov 2024 - Present

- Utilized MySQL for data extraction and manipulation and Power BI for creating dynamic dashboards and reports. Managed end-to-end analytics projects, from gathering client requirements to delivering insights that improved operational efficiency and business outcomes. Delivered data-driven solutions across various industries by transforming raw data into actionable insights, helping clients make informed decisions.
-

Education

Bachelor of Science in Aeronautical Engineering

Holy Angel University | 2019-2023

Senior High School - Strand: Information and Communication Technology (ICT)

Porac Model Community High School | 2017-2019

Skills

Hard Skills: Microsoft Office (Word, Excel, PowerPoint), Power BI, Power Query, SQL

Soft Skills: Quick learner, Adaptability, Problem Solving, Analytical Skills, Cross-team Collaboration

Certifications/Skills Development

Associate Data Analyst - DataCamp (2024)

- Developed skills in handling real-world data, including cleaning and transforming data for reporting purposes.
- Successfully completed hands-on projects to solve practical data problems and support decision-making.

SQL Associate - DataCamp (2024)

- Gained proficiency in SQL for data manipulation and analysis, including querying, filtering, and aggregating data.
- Developed skills in creating and managing databases, tables, and views.
- Learned to use various SQL functions and clauses for data transformation.

SQL for Business Analyst - DataCamp (2024)

- Mastered data manipulation and querying using SQL for business insights.
- Applied best practices for structuring and presenting data insights for stakeholders.

Strategic Planning - HP Foundation (2024)

Data Analyst in Power BI - DataCamp (2024)

- Acquired skills in data preparation, including cleaning, merging, and transforming datasets using Power Query.
- Gained expertise in designing interactive dashboards and data visualizations to communicate insights effectively.
- Mastered DAX (Data Analysis Expressions) to perform advanced calculations, create custom measures, and build calculated columns.
